Street, 02-507 Warsaw, Poland

Deadline for manuscript
submissions:

closed (30 September 2023)

Message from the Guest Editor

Dear Colleagues,

Personalized medicine is developing fast, and new data are emerging in huge amounts. This might enable the proper risk assessment, diagnosis, prevention, and therapy specifically tailored to the individual's unique characteristics, thus enhancing the quality of life and public health. Therefore, this Special Issue aims to present recent developments in personalized/individualized medicine and coronary artery disease.

We invite authors to submit original studies, reviews, meta-analyses, and case reports focused on the individualization of the prevention, diagnosis, and treatment of coronary artery disease and its complications such as myocardial infarction or heart failure. We are soliciting not only genetic studies but all papers on the broadly understood personalized or individualized medicine, including manuscripts devoted to novel drugs, medical devices, or approaches dedicated to particular subsets of patients.

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, ‘omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) CiteScore - Q2 (*Medicine (miscellaneous)*)
