Miami Cancer Institute, Baptist Health South Florida, Miami, FL, USA

Deadline for manuscript submissions:

closed (5 February 2024)

Message from the Guest Editors

Biostatistics has evolved and expanded over time, playing a crucial role in the design and analysis of medical, public health, and biological research studies. Informatics and omics have made it easier to understand disease patterns, identify risk factors, and evaluate the efficacy of treatments.

This Special Issue aims to provide a forum for researchers and medical practitioners to discuss the most recent findings, methodologies, and applications of biostatistics in the fields of disease prevention, diagnosis, and treatment. The Issue's scope includes, but is not limited to, the application of biostatistics in epidemiology, clinical trials, health services research, bioinformatics, genomics, proteomics, and precision medicine.

We invite submissions of original research papers, review articles, and communications that contribute to the issue's theme. We particularly encourage submissions that demonstrate the integration of biostatistics with other disciplines, such as genomics, bioinformatics, and health informatics, in order to address complex health issues.

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, ‘omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Author Benefits

Open Access:— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) CiteScore - Q2 (*Medicine (miscellaneous)*)
