Message from the Guest Editor

Dear Colleagues,

There have been many exciting developments in research on financial data analysis in recent years. Advancements have been made in both methodological contributions and empirical applications. New statistical methods have been proposed to analyse new types of data that have been made available, as well as to answer new questions that have arisen. This Special Issue intends to present to our readers such important contributions to financial statistics. We welcome papers on analytical issues as well as empirical studies, which may include, but are not limited to, research on high-frequency financial data, high-dimensional financial data, latent factor modelling in finance, machine learning in finance, volatility modelling, financial risk management, forecasting financial data and big-data analytics in finance.

Message from the Editor-in-Chief

Researchers are most welcome to contribute original research articles or comprehensive review papers for consideration and publication in *Journal of Risk and Financial Management (JRFM)*, an on-line, open access journal. *JRFM* adheres to rigorous peer-review as well as editorial processes, and publishes high quality manuscripts that address theoretical, practical and empirical issues in analysing real life financial data. The goal of *JRFM* is to enable rapid dissemination of high impact research to the scientific community.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [EconBiz](#), [EconLit](#), [RePEc](#), and [other databases](#).

Journal Rank: CiteScore - Q2 (*Business, Management and Accounting (miscellaneous)*)
