

## Topical Advisory Panel Member Solicited Papers Series: Soil Remediation

Guest Editors:

**Prof. Dr. Jorge Mongil-Manso**

**Prof. Dr. Raimundo Jiménez Ballesta**

**Dr. Ana San José Wery**

**Dr. Alexandra Díez Méndez**

**Dr. Juan M. Trujillo Gonzalez**

**Dr. José Joaquín Ramos Miras**

Deadline for manuscript  
submissions:

**30 August 2024**

### Message from the Guest Editors

Dear Colleagues,

Soil contamination by organic and inorganic compounds is a major problem in developed countries, where industrial, agricultural and livestock activities can impact the environment, and especially on soil.

For this reason, regulations, as well as techniques, methods, protocols and technologies, have been developed at various levels for soil decontamination or remediation. Many techniques have been successfully used and others still require experimentation prior to practical application, with scientists working on topics such as ecological risks of contamination, soil remediation, groundwater implications, and the use of plant species and microbiological techniques for soil remediation.

The following is a list of suggested topics:

- Results of the implementation of existing legislation at all levels.
- Ecological risks of soil contamination.
- Ecotoxicology
- The production and management of waste as a source of pollution.
- Groundwater contamination.
- The identification and characterization of contaminated soils.
- Geostatistics, radiometry, remote sensing techniques, etc.
- Physico-chemical and biological soil remediation strategies and techniques.

## Message from the Editor-in-Chief

*Land* is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q2 (*Nature and Landscape Conservation*)
