Message from the Guest Editor

In this Special Issue, we invite papers focusing on, but are not limited to, the following topics:

- Regeneration of declining post-industrial cities
- Nature-Based Solutions and benefits of re-naturing cities
- Biophilic design
- Sustainable urban development
- Landscape ecological urbanism
- Climate change adaptation and mitigation
- Creating green space through low-budget and upcycling strategies for positive use of waste materials
- Placemaking: strengthening the connection between people and the places they share
- Participatory approaches in re-designing and transforming public spaces to increase health and well-being in cities
- Environmental justice: Innovative urban design and planning to reduce health-related environmental burdens, foster equitable access for all to public spaces and promote sustainable urban mobility patterns
