Quality of Urban Space versus Quality of Urban Life

Guest Editor:

Dr. Anna Winiarczyk-Raźniak

Institute of Geography, Faculty of
Social Sciences, Pedagogical
University of Krakow, 30-084
Krakow, Poland

Deadline for manuscript
submissions:

closed (31 October 2021)

Message from the Guest Editor

This Special Issue focuses on relationships that exist between the quality of urban space and quality of life in the city. The latter is the product of many different factors, including the vital role of humans' surrounding environment. This is why efforts designed to enhance urban dwellers' subjective sense of wellbeing as well as yield better results in terms of objective indicators measuring various aspects of quality of life need to consider the issue of the quality of urban space. This issue may be examined on a variety of levels ranging from urban ecology, community development, architecture, political climate, and living conditions. Differences in living conditions often become a source of conflict between different social groups in the city and may affect the direction of intra-metropolitan migrations.

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q2 (*Nature and Landscape Conservation*)
