Message from the Guest Editors

Dear Colleagues,

Currently research in optometry and ocular surface covers fields ranging from binocular vision, accommodation, and ocular surface to contactology or refractive surgery. Ophthalmologists and optometrists need the latest and most up-to-date information available to improve their processes in daily clinical practice. However, on some occasions, daily care work does not allow time to review the latest developments in clinical optometry and ocular surface. Therefore, this Special Issue aims to share with professionals the latest news and new horizons in this discipline.

Research is the present of our profession, and it must also be the future. This will enable us to achieve a more optimized clinical practice, as research is the result of our knowledge power and a source of new inspiration and progress.

This Special Issue invites original research and review articles on recent achievements in advanced and clinical optometry and ocular innovative studies.

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [CAPus / SciFinder](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Biology*) / CiteScore - Q2 (*Paleontology*)
