Application of Endoscopic Imaging in Gastrointestinal Disease

Guest Editors:

Dr. Bogdan Silviu Ungureanu

Department of Gastroenterology,
University of Medicine and
Pharmacy of Craiova, 200349
Craiova, Romania

Prof. Dr. Ion Rogoveanu

Research Center of
Gastroenterology and
Hepatology, University of
Medicine and Pharmacy of
Craiova, 200638 Craiova,
Romania

Dr. Nikola Panić

Digestive Endoscopy Unit,
University Clinic "Dr Dragisa
Misovic-Dedinje", Belgrade
11000, Serbia

Deadline for manuscript
submissions:
closed (24 February 2023)

Message from the Guest Editors

Novel endoscopic imaging techniques such as narrow-spectrum endoscopy or even confocal laser endomicroscopy have been continuously introduced to improve the early diagnosis of gastrointestinal disease. Both early diagnosis and the ability to distinguish between benign and malignant lesions have enhanced the endoscopy technology spectrum, and are currently facing new challenges such as oncologic targeted therapy. Providing information about mucosa characteristics, as well as the capability of providing both local or advanced therapeutic endoscopic methods, have resulted in path-breaking development of gastrointestinal disease management. At the core of the endoscopic imaging revolution lies the need for new methods for the diagnosis and therapy of gastrointestinal disease.

Currently, the use of artificial intelligence for endoscopic imaging is standing as a new tool. In this Special Issue, we focus on the use of endoscopic imaging for gastrointestinal disease. From white light endoscopy to "red flag techniques" and confocal laser endomicroscopy as well as ERCP and EUS, we would like to invite researchers to share their experiences.

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [CAPus / SciFinder](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Biology*) / CiteScore - Q2 (*Paleontology*)
