## Recent Trends in Computational Research on Diseases

Guest Editors:

**Dr. Md. Altaf-Ul-Amin**

**Prof. Dr. Shigehiko Kanaya**

**Dr. Naoaki Ono**

**Dr. Ming Huang**

Deadline for manuscript  
submissions:

**closed (20 October 2021)**

### Message from the Guest Editors

Recent advances of information technology brought us a paradigm shift in science, especially in biology and medical field. Statistical methodologies based on high performance computing and big data analysis is now indispensable for qualitative and quantitative understanding of experimental results. Information about amino acid sequences, protein structures and molecular structures are fundamental data for prediction of bioactivity of chemical compounds to screening drugs. On the other hand, cell imaging, clinical imaging and personal healthcare devices are also providing important data concerning human body and diseases. In parallel, various mathematical modelling such as machine learning have developed so rapidly. All types of aforementioned data can be utilized in computational approaches for understanding disease mechanisms, diagnosis, prognosis, drug discovery, drug repositioning, disease biomarkers, driver mutations, copy number variations, Disease pathways and many more.

In this Special Issue we are calling papers on novel models, methods, algorithms and important innovations focusing computational research on diseases.

## Editor-in-Chief

### **Prof. Dr. Lluís Ribas de Pouplana**

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona Institute of Science and Technology, 08028 Barcelona, Spain

## Message from the Editor-in-Chief

*Life* (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

## Author Benefits

**Open Access:**— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [CAPus / SciFinder](#), [AGRIS](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Biology*) / CiteScore - Q2 (*Paleontology*)
