Prof. Dr. Elvira Verduci1. Department of Health

Sciences, Università di Milano, 20122 Milan, Italy 2. Department of Pediatrics, Vittore Buzzi Children's Hospital, 20154 Milan. Italy

Message from the Guest Editors

Pediatric nutrition is a crucial pitfall in an individual's life due to the rapid changes in nutritional requirements and the consequent impact on infant growth and development, but also regarding lifelong taste preference and dietary habits, which influence mid- and long-term health. There is an increasing body of evidence addressing the pivotal role of nutrition, especially during the early stages of life, for the onset of chronic non-communicable diseases such as obesity, hypertension, diabetes, and allergic diseases. The aim of this Special issue is to discuss the effects of composition and mode of nutrition in pediatric age on mid- and long-term health outcomes.

Deadline for manuscript submissions:

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona Institute of Science and Technology, 08028 Barcelona, Spain

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank: JCR - Q2 (Biology) / CiteScore - Q2 (Paleontology)
