Deadline for manuscript
submissions:

20 December 2023

Message from the Guest Editor

Dear Colleagues,

Construction materials are crucial to safely maintaining structures and buildings. In recent years, significant advances in the field of construction materials have been made. We invite you to contribute high-quality research or review papers to this Special Issue of *Materials* on ‘Experimental Tests and Numerical Analysis on Construction Materials’, with an emphasis on innovative, novel and emerging materials, as well as traditional construction materials. We welcome the submission of papers that attend to areas including, but not limited to, soil, geomaterials, cements, concretes, steels, grouting materials, and novel and emerging construction materials. Papers will be accepted for this Special Issue once they have undergone a rigorous peer-review procedure.

Prof. Dr. Daehyeon Kim

Message from the Editor-in-Chief

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Author Benefits

Open Access:— free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank: JCR - Q2 (*Metallurgy & Metallurgical Engineering*) / CiteScore - Q2 (*Condensed Matter Physics*)
