an Open Access Journal by MDPI

Selected Papers from 3-day International Conference on Materials Science (3d-ICOMAS)

Guest Editors:

Prof. Dr. Alexander M. Korsunsky

Department of Engineering Science, Trinity College, University of Oxford, Oxford OX1 3PJ, UK

Prof. Dr. Tea-Sung (Terry) Jun

Department of Mechanical Engineering, Incheon National University, Incheon, Korea

Prof. Dr. Slawomir Kaczmarek

Department of Technical Physics, Faculty of Mechanical Engineering and Mechatronics, West Pomeranian University of Technology, Al. Piastów 17, 70-310 Szczecin, Poland

Deadline for manuscript submissions:

closed (20 February 2023)

Message from the Guest Editors

Dear Colleagues,

It is our great pleasure to announce a collection of papers related to the three-day International Conference on Materials Science, an international meeting on physics, chemistry, and engineering of materials that is scheduled to take place on October 26–28, 2022, in Verona, Italy.

The scope of the conference is to bring together scientists from different areas of materials science, physicists, chemists, and engineers by providing the opportunity to exchange ideas, advance knowledge, and discuss the latest trends in the field.

Conference topics are related to all aspects of scientific research related to advanced and functional materials, such as nanomaterials, electronic, and photonic materials (semiconductors, dielectrics, liquid crystals, ionic solids), ferroelectric and piezoelectric materials, ferromagnetics, multiferroics, thin-films and coatings, metals/alloys and composites, glasses, catalytic materials, polymers, energy materials, and bio- and organic materials, including both experimental and theoretical aspects.

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada

2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

Message from the Editor-in-Chief

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank: JCR - Q2 (*Metallurgy & Metallurgical Engineering*) / CiteScore - Q2 (*Condensed Matter Physics*)
