Deadline for manuscript submissions:

closed (20 May 2022)

## **Message from the Guest Editors**

Dear Colleagues,

Green technologies have recently become increasingly attractive to researchers, engineers, manufacturers, materials scientists. chemical engineers, environmental scientists working in various areas. This Special Issue will covers advances in green technologies starting from basic topics. Within the scope of this SI is the category of materials with green manufacturing and applications, considering that the attention toward minimizing energy consumption while factoring in environmental concerns and efficiency in manufacturing green technology will be a key issue in various areas from ceramics toward composites, with emphasis on the area of the biocomposites. Topics to be covered will include design and manufacturing processes, renewable energy, ecofriendly materials and structures, energy saving, waste reduction and utilization, and environmental management and policy within the scope of green technologies, manufacturing, and applications.

## **Editor-in-Chief**

#### Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada

2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, OC H3A 0C7, Canada

## **Message from the Editor-in-Chief**

Materials (ISSN 1996-1944) was launched in 2008. The iournal covers twenty-five comprehensive biomaterials, energy materials, advanced composites. advanced materials characterization, porous materials, manufacturing processes and systems. nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials. materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. Materials provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

### **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases

**Journal Rank:** JCR - Q2 (*Metallurgy & Metallurgical Engineering*) / CiteScore - Q2 (*Condensed Matter Physics*)
