Message from the Guest Editors

Dear Colleagues,

This Special Issue will highlight recent advances in functional polymeric materials and green chemistry that have been developed in various fields of science and industry, including material design, chemistry and synthesis, material characteristics, processing, and applications.

The main topics include but are not limited to:

- Smart and high-performance polymeric materials;
- Green chemistry for functional polymeric materials;
- Sustainable, bio-based polymeric materials;
- Polymeric materials for additive manufacturing.

It is my pleasure to invite you to submit a manuscript to this Special Issue of *Materials*. Submissions of communications, full papers, and reviews are all welcome.
