submissions:
closed (31 January 2016)

Message from the Guest Editors

Dear Colleagues,

Phase change materials (PCM) have been a research interest for many of us due to their wide range of applications and their challenges to meet the requirements set by those applications. Still, many issues remain unsolved and require work, such as encapsulation at nano, micro, and macro scales. Not only development of encapsulated PCM, but also the characterisation of the encapsulated PCM should be studied.

Therefore, it is our pleasure to invite you to submit a manuscript for this Special Issue.

Prof. Dr. Luisa F. Cabeza

Dr. A. Inés Fernández

2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

Message from the Editor-in-Chief

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank: JCR - Q2 (*Metallurgy & Metallurgical Engineering*) / CiteScore - Q2 (*Condensed Matter Physics*)
