

Synthesis, Modification, and Application of Polymer Sorbents

Guest Editor:

Prof. Dr. Dorota Kołodyńska

Department of Inorganic
Chemistry, Institute of Chemical
Sciences, Faculty of Chemistry,
Maria Curie Skłodowska
University, 20-031 Lublin, Poland

Deadline for manuscript
submissions:

closed (20 August 2022)

Message from the Guest Editor

It is my pleasure to invite you to submit to this Special Issue research articles and review papers on synthesis, modification, and application of polymeric sorbents. This Special Issue of *Materials* will cover recent progress, novelties, and important findings regarding methods of synthesis, physicochemical parameters modifications, for example, connected with the solubility, stability, crosslinking, and polymer architecture as well as significant differences regarding sorption properties.

Materials is fully open access. Open access (unlimited and free access by readers) increases publicity and promotes more frequent citations, as indicated by several studies. Open access is supported by the authors and their institutes through an Article Processing Charge (APC).

Please let me know if you and your colleagues are interested in submitting a manuscript for this Special Issue.

- polymer sorbents
- synthesis
- modification
- adsorption
- environmental protection
- pollutant removal
- wastewater treatments

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank: JCR - Q2 (*Metallurgy & Metallurgical Engineering*) / CiteScore - Q2 (*Condensed Matter Physics*)
