Load Test and Numerical Analysis on Construction Materials

Guest Editor:

Prof. Dr. Daehyeon Kim

Department of Civil Engineering,
Chosun University, Gwangju,
Republic of Korea

Deadline for manuscript
submissions:

closed (20 June 2022)

Message from the Guest Editor

Construction materials are very important for maintaining structures and buildings safely. Significant advancement in the area of construction materials has taken place recently. This Special Issue of *Materials* is on “Load Test and Numerical Analysis on Construction Materials”. We invite you to submit high-quality research or review papers to this Special Issue, with an emphasis on innovative, new and emerging materials, as well as traditional construction materials. Some areas of interests for this Special Issue include, but are not limited to, soil, cement, concrete, steel, grouting materials, and new emerging construction materials. Papers will be accepted for this Special Issue after going through a rigorous peer-review procedure.

Message from the Editor-in-Chief

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Author Benefits

Open Access:— free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank: JCR - Q2 (*Metallurgy & Metallurgical Engineering*) / CiteScore - Q2 (*Condensed Matter Physics*)
