

Advances in Quantum Key Distribution and Quantum Information

Guest Editors:

Dr. Tao Wang

Dr. Peng Huang

Dr. Qin Liao

Deadline for manuscript
submissions:

31 October 2024

Message from the Guest Editors

This Special Issue aims to compile a series of research papers to present the latest developments in quantum cryptography and quantum information. We sincerely invite submissions related to the theoretical and experimental progress in fields such as quantum cryptography, quantum key distribution, quantum networks, quantum chips, physical cryptography, and other fields related to quantum information.

- quantum information
- quantum cryptography
- quantum random number generation
- quantum network
- chip-based quantum devices
- quantum noise stream cipher
- quantum digital signatures
- physical cryptography
- post-quantum cryptography

Editor-in-Chief

Prof. Dr. Francisco Chiclana

School of Computer Science and
Informatics, De Montfort
University, The Gateway,
Leicester LE1 9BH, UK

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank: JCR - Q1 (*Mathematics*) / CiteScore - Q1 (*General Mathematics*)
