

## Theory and Application of Neural Networks and Complex Networks

Guest Editors:

**Prof. Dr. José F. Vicent**

Department of Computer Science  
and Artificial Intelligence,  
University of Alicante, Carretera  
San Vicente del Raspeig s/n,  
03690 San Vicente del Raspeig-  
Alicante, Spain

**Prof. Dr. Leandro Tortosa**

Department of computer Science  
and Artificial Intelligence,  
University of Alicante, Carretera  
San Vicente del Raspeig s/n,  
03690 San Vicente del Raspeig-  
Alicante, Spain

**Dr. Manuel Curado**

Polytechnic School, Catholic  
University of Murcia, Campus Los  
Jeronimos, s/n, E-30107 Murcia,  
Spain

Deadline for manuscript  
submissions:

**15 October 2024**

### Message from the Guest Editors

Dear Colleagues,

The analysis of complex networks has focused the attention of researchers in recent years. The Complex Network Theory allows us to understand, model and try to solve a great diversity of real systems such as transport networks, urban networks, or social networks between others. Artificial neural networks are recognized as a powerful tool that can help identify intertwined and complex relationships in a large number of systems.

This Special Issue aims to collect theories or applications that utilize Artificial Neural Networks or Complex network methods to address all types of challenges. The topics of interest include, but are not limited to:

- Artificial neural networks.
- Machine and deep learning models.
- Clustering and classification algorithms.
- Predictive models.
- Graph neural networks.
- Models of complex networks.
- Centrality measures.
- Multiplex networks.
- Algorithms for network analysis.
- Spatial networks.
- Dynamic networks.
- Complex networks and epidemics.
- Applications of neural networks and complex networks domains: transport, energy, IoT, smart cities, etc.

# Special Issue

## Editor-in-Chief

**Prof. Dr. Francisco Chiclana**  
School of Computer Science and  
Informatics, De Montfort  
University, The Gateway,  
Leicester LE1 9BH, UK

## Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

**Journal Rank:** JCR - Q1 (*Mathematics*) / CiteScore - Q1 (*General Mathematics*)
