and Simulation, University of
Nicosia, 2417 Nicosia, Cyprus

Prof. Dr. Dimitris Drikakis

Institute for Advanced Modeling
and Simulation, University of
Nicosia, 2417 Nicosia, Cyprus

Deadline for manuscript
submissions:

31 March 2025

Message from the Guest Editors

Research on Artificial Intelligence (AI) algorithms and models has significantly increased in recent years. This has opened up new opportunities for fluid dynamics and its applications in science, engineering, and medicine. However, several challenges remain unresolved, including the use of large data and the associated computational costs and algorithmic uncertainty, particularly for sparse and noisy data. This Special Issue welcomes contributions that address the algorithmic, mathematical, and implementation challenges of Artificial Intelligence and Machine Learning in Fluid Dynamics.

Prof. Dr. Francisco Chiclana

School of Computer Science and
Informatics, De Montfort
University, The Gateway,
Leicester LE1 9BH, UK

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank: JCR - Q1 (*Mathematics*) / CiteScore - Q1 (*General Mathematics*)
