Message from the Guest Editors

Dear Colleagues,

This Special Issue of *Mathematics* aims to highlight and explore some of the more recent theoretical and practical advances in computer modeling and simulation of social-behavioral phenomena toward efficient decision processes.

We invite researchers from the areas of social sciences and humanities, operations research, computational intelligence, agent-based simulation, applied mathematics, econophysics, and others to take part in the Special Issue. There is also an opportunity for participants of the 2nd International Conference on “Modeling and Simulation of Social-Behavioral Phenomena in Creative Societies” (MSBC-2022) <https://msbc.tech/> to contribute proposals.

Deadline for manuscript
submissions:

30 May 2024

Editor-in-Chief

School of Computer Science and
Informatics, De Montfort
University, The Gateway,
Leicester LE1 9BH, UK

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank: JCR - Q1 (*Mathematics*) / CiteScore - Q1 (*General Mathematics*)
