Recent Trends and Advances in the Natural Language Processing

Guest Editors:

Prof. Dr. Chen Li
Computer Science Department, Xi'an Jiaotong University, Xi'an 710049, China

Prof. Dr. Jun Liu
Computer Science Department, School of Electronic and Information Engineering, Xi'an Jiaotong University, Xi'an 710049, China

Dr. Tieliang Gong
Computer Science Department, Xi'an Jiaotong University, Xi'an 710049, China

Deadline for manuscript submissions:
15 October 2024

Message from the Guest Editors

Dear Colleagues,

This Special Issue offers a timely collection of original contributions of works to benefit the researchers and practitioners in the research fields of new trends and applications in natural language processing. The Special Issue focuses on the use and exploration of new technologies (see keywords) for NLP-related tasks, including (but not limited to) information extraction, information retrieval, sentiment analysis, machine translation, text summarization, and dialogue systems.

Keywords

- language model
- few-shot learning for NLP
- reinforcement learning for NLP
- lifelong learning for NLP
- graph learning for NLP
- multilingual NLP
- multimodel NLP
- reinforcement learning for NLP
- intelligent applications with NLP

Special Issue

Editor-in-Chief

Prof. Dr. Francisco Chiclana
School of Computer Science and Informatics, De Montfort University, The Gateway, Leicester LE1 9BH, UK

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.
Journal Rank: JCR - Q1 (*Mathematics*) / CiteScore - Q1 (*General Mathematics*)
