Trends in Game Theory and Its Applications, 2nd Edition

Guest Editors:

Dr. David Barilla

Prof. Dr. Massimiliano Ferrara

Dr. Stefano Moretti

Deadline for manuscript submissions:
closed (31 December 2023)

Message from the Guest Editors

Submissions are welcome for a Special Issue on Trends in Game Theory and Its Applications II to appear in the *Mathematics* Journal. The deadline for submission is 31st March 2023. The Special Issue invites submissions in all areas covered by the European Meetings on GameTheory (SING), including, but not limited to:

- cooperative games and their applications,
- mechanism design,
- networks,
- dynamic games,
- evolutionary games,
- stochasticgames,
- voting and powerindices,
- auctions,
- bargaining,
- learning and experimentation in games,
- computational game theory,
- game theory applications in fields such as: management, energy, health policy, industrial organisation, and others.

In particular, we would like to encourage participants of the 18th European Meeting on Game Theory (SING 18) to submit full, extended versions of their presented papers. However, other relevant papers are welcome. Contributions arising from papers given at a conference should be substantially extended, and should cite the conference paper where appropriate.

Special Issue

Editor-in-Chief

Prof. Dr. Francisco Chiclana
School of Computer Science and Informatics, De Montfort University, The Gateway, Leicester LE1 9BH, UK

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.
Journal Rank: JCR - Q1 (*Mathematics*) / CiteScore - Q1 (*General Mathematics*)
