

## Modeling, Simulation, Control and Optimization in Engineering with Applications

Guest Editors:

**Prof. Dr. Montserrat Gil-Martínez**

Control Engineering Research Group, Electrical Engineering Department, University of La Rioja, Logroño, Spain

**Prof. Dr. Ramón Vilanova Arbós**

Department of Telecommunication and System Engineering, Universitat Autònoma de Barcelona, Barcelona, Spain

**Prof. Dr. Marian Barbu**

Department of Automation and Electrical Engineering, Dunarea de Jos University of Galati, Galati, Romania

Deadline for manuscript submissions:

**closed (31 March 2024)**

### Message from the Guest Editors

The Special Issue on modeling, simulation, control and optimization (MSCO) aims to gather a collection of case studies, examples of application, and new optimization and simulation-based techniques specially oriented to facilitate the controller design task and its success behavior. Topics include but are not limited to the following:

- Mathematical modeling of physical systems.
- Simulation and optimization software.
- Computational processes in modeling, simulation and optimization.
- Optimisation approaches for control systems design
- Optimisation and modeling in artificial intelligence
- Modeling, simulation and optimization of coupled problems.
- Modeling and simulation-based decision support systems.
- Defining synthetic environments for engineering problems.
- Model predictive control
- Robust and adaptive control
- Modeling, simulation, control and optimization of industrial processes, electrical and energy systems, or transport systems.
- Modelling, control, navigation and guidance of unmanned vehicles

# Special Issue

## Editor-in-Chief

### **Prof. Dr. Francisco Chiclana**

School of Computer Science and  
Informatics, De Montfort  
University, The Gateway,  
Leicester LE1 9BH, UK

## Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

**Journal Rank:** JCR - Q1 (*Mathematics*) / CiteScore - Q1 (*General Mathematics*)
