Message from the Guest Editors

Dear Colleagues,

We welcome papers that use machine learning/deep learning approaches to analyze biomedical signals. The biomedical signals we consider may include microscopy, ultrasound, MRI, PET, X-ray, imaging, EKG, EEG, and many other modes of physiological signal acquisition. This Special Issue aims to showcase recent advances in artificial intelligence in biomedical signal processing.

Prof. Dr. Yi Jiang
Dr. Dong Hye Ye
Dr. Jun Kong

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank: JCR - Q1 (*Mathematics*) / CiteScore - Q1 (*General Mathematics*)
