

## Advances of Intelligent Systems

Guest Editors:

**Prof. Dr. Fangfei Li**

School of Mathematics and the  
Key Laboratory of Smart  
Manufacturing in Energy  
Chemical Process, Ministry of  
Education, East China University  
of Science and Technology,  
Shanghai 200237, China

**Dr. Jiapeng Xu**

Department of Electrical and  
Computer Engineering, University  
of Windsor, Windsor, ON N9B  
3P4, Canada

Deadline for manuscript  
submissions:

**30 April 2024**

### Message from the Guest Editors

Intelligent systems are widely used in power grids, air and road traffic control systems, communication networks and other practical applications. The rapid development of information technology and big data in recent years has brought about opportunities for the modeling, analysis, calculation, control and optimization of intelligent systems. Intelligent systems and computing, a multi-disciplinary subject, integrates simulation and computer modeling, data analysis, control theory, intelligent optimization, network technology and so on.

This Special Issue aims to publish new theories, methods, algorithms and applications pertaining to the analysis, calculation, optimization and control of intelligent systems. Topics of interest include, but are not limited to, the following:

- Modeling in intelligent systems;
- Simulation software;
- Numerical methods for intelligent systems;
- Optimization methods;
- Control problems;
- Markov decision process;
- Reinforcement learning;
- Deep learning.

Leicester LE1 9BH, UK

## Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

## Author Benefits

**Open Access:**— free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

**Journal Rank:** JCR - Q1 (*Mathematics*) / CiteScore - Q1 (*General Mathematics*)
