Message from the Guest Editors

Dear Colleagues,

Otorhinolaryngology and head and neck specialists worldwide face an increasing incidence and prevalence of various pathologies, some of the cases neglecting the evolution of their condition during the period of COVID-19 pandemics, and thus aggravating their evolution. We are pleased to invite you to contribute to this Special Issue with manuscripts reflecting current trends in ENT and HNS. We welcome original articles, but also reviews and selected rare case series to update the protocols of ENT and allied specialists worldwide during the aftermath of the COVID-19 pandemic.

This Special Issue aims to refresh the knowledge on the numerous branches of pathology that contribute to the high complexity of our medical practice.

Dr. Adriana Neagos
