Deadline for manuscript  
submissions:

**closed (15 November 2023)**

### Message from the Guest Editor

Dear Colleagues,

Despite considerable advances in our understanding of the mechanism of neuropathic pain, it remains a serious, global public health issue. Regardless of the etiology, it often has a profoundly devastating effect on an individual's quality of life. Medical treatment is a mainstay of therapy, with many medications being used off-label due to a lack of better options.

In this Special Issue, we welcome original research papers and review articles concerned with this important clinical entity. We want this to be a comprehensive update on recent advances in the field of management of neuropathic pain, with emphasis on various methods of treatment.

Dr. Grzegorz Miękiśiak
