Deadline for manuscript
submissions:

10 March 2024

Message from the Guest Editor

Chronic obstructive pulmonary disease (COPD) and cystic fibrosis (CF) are two chronic inflammatory lung diseases, which seem to be very different from each other.

The aim of this Special Issue will be to deliver new insights into the evolving field of CF and COPD research. Manuscripts focused on the following topics are strongly encouraged.

- Novel therapeutic strategies in CF and COPD;
- Chronic inflammation and infections in CF and COPD;
- Disparity research in COPD;
- Aging in COPD and CF;
- Access to care for patients with CF and COPD.
