Surgery, Konkuk University
Medical Center, Konkuk
University, Seoul, Republic of
Korea

Deadline for manuscript
submissions:

30 November 2024

Message from the Guest Editor

Most knee surgeries aside from artificial joint surgery are now treated with arthroscopy, which has become a standard surgical procedure. Around the world, many orthopaedic surgeons passionately find innovative approaches and ways of carrying out trials to share and advance the field of knee surgery. The aim of this Special Issue of *Medicina* is to present new advances in knee arthroscopic surgeries for sports injuries and disorders. This Special Issue is open to studies for new surgical techniques, evolved diagnosis, clinical outcomes, rehabilitation strategies, and current reviews. We invite authors to submit articles related to knee arthroscopy.
