

Selected Papers from the MSA ECR & IMSTEC 2020

Guest Editors:

Dr. Sherub Phuntsho

Prof. Dr. Long D. Nghiem

Dr. Pierre LeClech

Prof. Dr. Hokyoung Shon

Prof. Chuyang Tang

Prof. Dr. Ludovic F. Dumée

Deadline for manuscript
submissions:

closed (15 June 2020)

Message from the Guest Editors

We are pleased to invite you to the MSA ECR and IMSTEC conferences. Participants of the two conferences are cordially invited to contribute original research papers or reviews to this Special Issue of *Membranes*.

About MSA ECR 2020

The annual Membrane Society of Australasia Early Career Researcher Membrane Symposium (MSA ECR) aims to offer a platform for exchanging ideas and developing networks. Accomplished academics, industry experts, and renowned membrane scientists will also deliver a wide range of keynote presentations.

MSA ECR 2020 will be held at the University of Technology Sydney (UTS) on 1-2 February 2020.

About IMSTEC

The International Membrane Science & Technology Conference is attended by industry and academic leaders and focuses on advances in all areas of membrane science and technology, with particular attention on water treatment, food processing, energy production and material characterisation.

IMSTEC will be jointly organised by the University of New South Wales (UNSW) and the Sydney University of Technology (UTS) on 2–6 February 2020.

an Open Access Journal by MDPI

Editor-in-Chief

University of Melbourne,
Melbourne, VIC 3010, Australia

Message from the Editor-in-Chief

You are cordially invited to contribute a research article or a comprehensive review for consideration and publication in *Membranes* (ISSN 2077-0375).

Membranes is an international, peer-reviewed open access journal of membrane technology published monthly online by MDPI. The journal covers the broad aspects of the science and technology of both biological and non-biological membranes, including membrane dynamics and the preparation and characterization of membranes and their applications in water, environment, energy, and food industries. Articles contributing to better understanding of transport processes in all types of membranes are also welcome. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Polymer Science*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
