an Open Access Journal by MDPI

Selected Papers from the MELPRO 2020

Guest Editors:

Prof. Dr. Enrico Drioli

Dr. Elena Tocci

Dr. Pavel Izák

Dr. Lubos Novak

Deadline for manuscript
submissions:
closed (31 August 2021)

Message from the Guest Editors

Dear Colleagues,

This Special Issue includes selected papers presented at the *Membrane and Electromembrane Processes* (MELPRO 2020), to be held from 8 to 11 November 2020, in Prague, Czech Republic.

Conference topics include,

- New membrane materials
- Gas, liquid, and vapor separation
- Pressure driven membrane processes
- Electrochemical membrane processes
- Membrane systems in water treatment, biotechnology, and biomedical applications
- Membrane operations in process engineering
- Modeling and simulation in membrane systems
- Membrane systems in the mining industry
- Membrane systems in space
- New trends in membrane applications
- Membrane systems for new agriculture

On behalf of the organizing committee, we cordially invite you to join us. Participants of the conference are cordially invited to contribute original research papers or reviews to this Special Issue of *Membranes*.

30% discount of Article Processing Charges is available for all the attendees of MELPRO 2020.

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Spas D. Kolev

School of Chemistry, The
University of Melbourne,
Melbourne, VIC 3010, Australia

Message from the Editor-in-Chief

You are cordially invited to contribute a research article or a comprehensive review for consideration and publication in *Membranes* (ISSN 2077-0375).

Membranes is an international, peer-reviewed open access journal of membrane technology published monthly online by MDPI. The journal covers the broad aspects of the science and technology of both biological and non-biological membranes, including membrane dynamics and the preparation and characterization of membranes and their applications in water, environment, energy, and food industries. Articles contributing to better understanding of transport processes in all types of membranes are also welcome. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Polymer Science*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
