Membranes IEM, University of
Montpellier-ENSCM-CNRS, 34095
Montpellier, France

Prof. Dr. Ludovic F. Dumée

Department of Chemical
Engineering, Khalifa University,
Abu Dhabi P.O. Box 127788,
United Arab Emirates

Deadline for manuscript
submissions:

closed (15 January 2020)

Message from the Guest Editors

Dear Colleagues,

We would like to invite you to submit original research or review papers to this Special Issue of *Membranes*—the open access journal of membrane technology.

For the development of environmental technologies, membranes play a crucial role in growing fields such as gas separation and production or water and gas treatment.

The aim of this Special Issue is to propose an overview of the up-to-date research that is being conducted in the field, through the online publication of articles or reviews, focusing more specifically on membranes' tailoring and their integration into environmental processes for gas and liquid treatment and/or separation.

Prof. Dr. Marc Cretin
Dr. Ludovic Dumée

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Spas D. Kolev

School of Chemistry, The
University of Melbourne,
Melbourne, VIC 3010, Australia

Message from the Editor-in-Chief

You are cordially invited to contribute a research article or a comprehensive review for consideration and publication in *Membranes* (ISSN 2077-0375).

Membranes is an international, peer-reviewed open access journal of membrane technology published monthly online by MDPI. The journal covers the broad aspects of the science and technology of both biological and non-biological membranes, including membrane dynamics and the preparation and characterization of membranes and their applications in water, environment, energy, and food industries. Articles contributing to better understanding of transport processes in all types of membranes are also welcome. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Polymer Science*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
