

an Open Access Journal by MDPI

Recent Developments in Membrane Biology

Guest Editors:

Dr. Mikhail V. Dubinin

Department of biochemistry, cell
biology and microbiology, Mari
State University, pl. Lenina 1,
Yoshkar-Ola, Mari El, Russia

**Prof. Dr. Konstantin
Belosludtsev**

Institute of Theoretical and
Experimental Biophysics, Russian
Academy of Sciences,
Institutskaya 3, 142290
Pushchino, Russia

Deadline for manuscript
submissions:

closed (30 June 2022)

Message from the Guest Editors

This Special Issue focuses on the latest advances in membrane biology. We invite you to submit reviews and original research papers further advancing our knowledge of the structure and function of membranes and their components in health and disease, as well as the effect of various ligands on their properties. We will also consider methodological developments and advancements used to study membranes.

- Biological membranes
- Artificial lipid membranes
- Model membrane systems
- Membrane fluidity and composition
- Membrane dynamics
- Membrane permeability
- Membrane signaling and receptors
- Membrane channels
- Protein–lipid interactions
- Membrane biomedical applications
- Membrane transporters
- Membrane bioenergetics

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Spas D. Kolev

School of Chemistry, The
University of Melbourne,
Melbourne, VIC 3010, Australia

Message from the Editor-in-Chief

You are cordially invited to contribute a research article or a comprehensive review for consideration and publication in *Membranes* (ISSN 2077-0375).

Membranes is an international, peer-reviewed open access journal of membrane technology published monthly online by MDPI. The journal covers the broad aspects of the science and technology of both biological and non-biological membranes, including membrane dynamics and the preparation and characterization of membranes and their applications in water, environment, energy, and food industries. Articles contributing to better understanding of transport processes in all types of membranes are also welcome. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Polymer Science*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
