

10th Anniversary of Metals: Metallurgy and Metal Technology

Guest Editors:

Prof. Dr. Hugo F. Lopez

Department of Materials Science
and Engineering, College of
Engineering & Applied Science,
University of Wisconsin-
Milwaukee, 3200 N. Cramer
Street, Milwaukee, WI 53211, USA

Prof. Dr. Bernd Friedrich

IME Process Metallurgy and Metal
Recycling Department, RWTH
Aachen University, 52072 Aachen,
Germany

Prof. Dr. Christof Sommitsch

Institute of Materials Science,
Joining and Forming, Graz
University of Technology,
Kopernikusgasse 24, A-8010 Graz,
Austria

Deadline for manuscript
submissions:

closed (31 December 2020)

Message from the Guest Editors

Dear Colleagues,

Metals (ISSN 2075-4701) is a peer-reviewed, open-access journal founded in 2011. With a first impact factor of 0.883 in 2015, *Metals* has experienced tremendous growth in terms of the number and quality of scientific publications. Now, *Metals* is ranking among the top international journals in the field of metallurgy and metallurgy engineering with an impact factor of 2.259. To celebrate the 10th anniversary of *Metals*, we are currently organizing a Special Issue to commemorate this important milestone.

To highlight this anniversary, we will be editing a Special Issue that will gather various topics related to metallurgy and metal technology.

All scholars in the community are invited to submit original articles and critical reviews on any of the topics. Please also encourage any of your colleagues who may be interested to submit manuscripts.

We expect that this Issue will attract considerable attention, as we prepare to celebrate the excellent scientific contributions of *Metals* over the past 10 years.

an Open Access Journal by MDPI

and Materials, University of
Science and Technology Beijing,
30 Xueyuan Road, Beijing 100083,
China

Message from the Editorial Board

Metallic materials play a vital role in the economic life of modern societies; contributions are sought on fresh developments that enhance our understanding of the fundamental aspects related to the relationships between processing, properties and microstructure – disciplines in the metallurgical field ranging from processing, mechanical behavior, phase transitions and microstructural evolution, nanostructures, as well as unique metallic properties – inspire general and scholarly interest among the scientific community.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus**, **SCIE (Web of Science)**, **Inspec**, **CAPlus / SciFinder**, and **other databases**.

Journal Rank: JCR - Q2 (*Metallurgy & Metallurgical Engineering*) / CiteScore - Q1 (*Metals and Alloys*)
