### Message from the Guest Editors

Dear Colleagues,

The remarkable explosion of wireless devices and bandwidth-consuming Internet applications has boosted the demand for ultra-high data rate wireless communications. To meet the exponentially increasing traffic demand, new regions in the radio spectrum are explored. The terahertz band (0.1 THz-10 THz), is considered as a next breakthrough-point to revolutionize the communication technology attributed to its rich spectrum resources. It is recognized as a promising candidate for future rate-greedy applications, such as 6G communications.

Motivated by the potential of the terahertz wireless communications, this Special Issue seeks critical technology breakthroughs in terms of the terahertz communications. The Special Issue topics include, but are not limited to, broadband terahertz devices, terahertz frontend and antenna design, baseband processing for THz links, terahertz propagation and channel modelling, system-level demonstration of terahertz communications.

## Editor-in-Chief

## Message from the Editor-in-Chief

You are invited to contribute research articles or comprehensive reviews for consideration and publication in *Micromachines* (ISSN 2072-666X). *Micromachines* is published in the open access format. Research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Micromachines* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We are pleased to welcome you as our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, dblp, and other databases.

**Journal Rank:** JCR - Q2 (*Chemistry, Analytical*) / CiteScore - Q2 (*Mechanical Engineering*)
