

Mycobacterium avium in Crohn's Disease and Other Inflammatory Diseases

Guest Editors:

Dr. Gaurav Agrawal

Dr. Thomas Borody

Prof. Dr. Saleh A. Naser

Dr. Michael. T. Collins

Dr. John Aitken

Deadline for manuscript
submissions:
closed (31 October 2021)

Message from the Guest Editors

This Special Issue of *Microorganisms* will be dedicated to the following themes: MAP in Crohn's Disease and other inflammatory diseases that have been proposed such as sarcoidosis and psoriasis; the microbiome in Crohn's disease; the microbiome effects on the human host and dysbiosis consequences; functional analysis, manipulating and treating the microbiome to suppress pathogens; challenges and tools of microbiome and mycobacteria research (standardization, taxonomy, data analysis); treatment effects and challenges of *M. avium* and critically; whether there is a relationship between MAP and dysbiosis of the gut microbiome in Crohn's Disease. Other desired topics will address culture and diagnoses of *Mycobacteria avium*, Johne's disease parallels and epidemiology, and the evidence for a zoonotic disease.

We hope you'll be curious and excited to submit your innovative research and proposals on this microorganism.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Microbiology*) / CiteScore - Q2 (*Microbiology (medical)*)
