Gut Microbiome of Farm Animals in Health and Disease 2.0

Guest Editors:

Dr. Łukasz M. Grześkowiak
Institute of Animal Nutrition, Freie Universität Berlin, 14195 Berlin, Germany

Dr. Elsa Leclerc Duarte
Department of Biology, School of Sciences and Technology and MED-Mediterranean Institute for Agriculture, Environment and Development, University of Évora, Évora, Portugal

Message from the Guest Editors

This Special Issue aims to publish recent findings on various aspects of the gut microbiota and its ecological interactions with the animal host through cellular, metabolic, genetic and environmental pathways. Research articles, review articles and short communications on the gut microbiome in farm animals are welcome. We look forward to publishing your work.

Deadline for manuscript submissions:
closed (15 December 2023)

Department of Molecular Systems Biology, UFZ-Helmholtz Centre for Environmental Research, 04318 Leipzig, Germany

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.
Journal Rank: JCR - Q2 (*Microbiology*) / CiteScore - Q2 (*Microbiology (medical)*)
