

*minerals*

Dear Colleagues,

We are pleased to announce that the winner of the *Minerals* 2023 Young Investigator Award is Dr. Anton Kuttyrev.

## 2023 YOUNG INVESTIGATOR AWARD WINNER

Dr. Anton Kuttyrev completed his PhD at the Institute of Volcanology and Seismology, Kamchatka, Russia, working on the behavior of platinum-group elements in island arc magmatic rocks and related deposits. After working as a Research Associate at the same organization, he received a Fulbright Visiting Scholar award and worked at the University of Oregon, where he studied the behavior of oxygen isotopes during water–rock interaction, with implications for the early Archean climate. In 2023, he started a postdoc position at Cardiff University, where his research focuses on PGE–Cr–Ti–V mineralization in the layered intrusions of Finland.

As the awardee, Dr. Anton Kuttyrev will receive an honorarium of CHF 2000, an offer to publish a paper free of charge before the end of 2024 in *Minerals* after peer-review, and an electronic certificate.

We would like to thank all the nominators from various fields of study for their participation and all the Award Committee Members for their evaluation of the many excellent nominations.

Editor-in-Chief, Prof. Dr. Leonid Dubrovinsky, on behalf of the *Minerals* 2023 Young Investigator Evaluation Committee
