Message from the Guest Editors

We are pleased to announce our forthcoming Special Issue, entitled “Topical Advisory Panel Members' Collection Series: Synthesis of Natural Compounds and Derivatives with Biological Activity”. This collection will be assembled from the papers of researchers invited by the Topical Advisory Panel Members.

The contributions of other authors will also be considered, but this Special Issue focuses primarily on highlighting recent interesting investigations conducted in the laboratories of our section's Topical Advisory Panel Members. This will allow us to provide an attractive open access publishing platform for organic chemistry and medicinal chemistry research data.

Deadline for manuscript
submissions:

closed (31 March 2024)

an Open Access Journal by MDPI

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Chemistry, Multidisciplinary*) / CiteScore - Q1 (*Chemistry (miscellaneous)*)
