### Message from the Guest Editors

In 2020, we are celebrating the 25th anniversary of our journal *Molecules*.

To date, the journal has published more than 20,000 papers, and the journal website attracts 115,000 monthly visits and more than 395,000 monthly page views. Most of this success has been achieved thanks to our readers, innumerable authors, anonymous peer reviewers, editors, and all the people working in some way for the journal, who have joined efforts for years.

To mark this important milestone, I am proud and honored to announce that a Special Issue entitled “25th Anniversary of Molecules—Recent Advances in Medicinal Chemistry” is being launched. This Special Issue will collect high-quality original research and review papers in medicinal chemistry research fields. Together with Prof Beatriz de Pascual-Teresa, Co-Guest Editor of the Issue, we encourage all research groups investigating various areas of Medicinal Chemistry to contribute original research articles or up-to-date comprehensive reviews, highlighting the latest developments in the field.

## Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Chemistry, Multidisciplinary*) / CiteScore - Q1 (*Chemistry (miscellaneous)*)
