submissions:

31 May 2024

Message from the Guest Editors

Edible insects are emerging as a potential solution, not only as a source of protein but also as a rich reservoir of other valuable compounds that can contribute to overcoming malnutrition and combating various diseases. The Special Issue of Molecules, titled "Edible Insects as a Source of Bioactive and Therapeutic Compounds: From Niche to Mainstream" aims to explore the diverse nutritional, bioactive, and therapeutic potential of edible insects.

Nutritional Composition: Papers focusing on the nutritional value of edible insects, including protein content, essential amino acids, vitamins, minerals, and fatty acids;

Bioactive Compounds: Research on bioactive compounds found in edible insects, such as antioxidants, antimicrobial agents, and anti-inflammatory substances;

Therapeutic Applications: Studies investigating the potential therapeutic properties of edible insect-derived compounds in the prevention and treatment of various health conditions.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Chemistry, Multidisciplinary*) / CiteScore - Q1 (*Chemistry (miscellaneous)*)
