Message from the Guest Editors

The editorial board of *Molecules* invites you to submit an article to a Special Issue entitled "Heterocyclic Bioactive Small Molecules: Advances in Structure Analysis and Drug Discovery in Heterocyclic Chemistry".

This special Issue of *Molecules* is directed at collecting original research articles and reviews in the field of medicinal chemistry. In particular, manuscripts dealing with computational drug design; new synthetic strategies; flow, green, and combinatorial chemistry; phytochemical extraction methodologies; structure–activity relationship analysis; and biological activities of heterocyclic compounds are welcome.

Molecules is indexed by the Science Citation Index Expanded (Web of Science), MEDLINE (PubMed) and other databases, and has an Impact Factor of 4.927 (2021).

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.
