Chemistry, Universität  
Paderborn, Paderborn, Germany

Deadline for manuscript  
submissions:

**31 December 2024**

### Message from the Guest Editor

Dear Colleagues,

This Special Issue of *Molecules* (MDPI) is inviting contributions that review any area of research in nanochemistry, with the aim of appealing to a broad and diverse audience. We particularly welcome summaries of recent, innovative, and interdisciplinary developments in nanochemistry that also touch on the neighboring fields of physics, biology, etc. Contributions shall critically summarize a selection of studies, methodologies, techniques, or applications; examine previously unaddressed aspects; propose and develop new approaches; exchange perspectives; and encourage new lines of research. Suitable topics include but are not limited to:

- Synthesis, characterization, and modelling of organic, inorganic, and biological nanomaterials;
- Spectroscopy and microscopy in relation to nanostructures and nanomaterials;
- Molecular and colloidal self-assembly;
- Nanomedicine and nanobiotechnology;
- Health, environmental, safety, and sustainability aspects of nanomaterials.

The major goal of this Special Issue is to collect papers from authors and present an overview of the diverse and exciting research directions in the broad field of nanochemistry.

an Open Access Journal by MDPI

## Editor-in-Chief

### **Prof. Dr. Thomas J. Schmidt**

Institute of Pharmaceutical  
Biology and Phytochemistry,  
University of Münster,  
Corrensstrasse 48, D-48149  
Münster, Germany

## Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Chemistry, Multidisciplinary*) / CiteScore - Q1 (*Chemistry (miscellaneous)*)
