Message from the Guest Editor

Dear Colleagues,

We are pleased to announce the new Special Issue entitled “Exclusive Feature Papers on Molecular Structure”. This is a collection of important high-quality papers (original research articles or comprehensive reviews) published in open access format by Editorial Board Members or prominent scholars invited by the Editorial Office and the Guest Editors. We aim to gather state-of-the-art or new cutting-edge developments that cover all kinds of topics in the molecular structure field through selected works, in the hope of making a great contribution to the community. We intend for this Special Issue to serve as a forum for disseminating excellent research findings, as well as sharing innovative ideas in the field.

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.
