submissions:
closed (31 December 2022)

Message from the Guest Editors

Dear Colleagues,

ICAP/ICAN 2022 will take place at Chestnut Residence of the University of Toronto in the heart of downtown Toronto, Ontario, Canada on June 28–30th, 2022. This is a biennial conference first organized 55 years ago; and the joint ICAP/ICAN conference has grown to encompass and advance knowledge in amino acids, and nucleic acids as they relate to biological processes, health and disease. The goal of the joint conference is to facilitate interaction and collaboration among attendees from Europe, Asia and the Americas. Participants of the conference, as well as all researchers working in the field are cordially invited to contribute original research papers or reviews to this Special Issue in commemoration of this conference.

Prof. Dr. Lakshmi Kotra
Dr. Ljubica Caldovic
Prof. Dr. Emil F. Pai

Corrensstrasse 48, D-48149
Münster, Germany

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Chemistry, Multidisciplinary*) / CiteScore - Q1 (*Chemistry (miscellaneous)*)
