Deadline for manuscript
submissions:

31 May 2024

Message from the Guest Editor

The editorial board of *Molecules* (IF: 4.6, ISSN 1420-3049) invites you to submit an article or review to a Special Issue entitled "Structural and Functional Properties of Food Proteins".

Both the structure and function of food proteins can be modulated via physicochemical methods. The structure–function relationship of proteins has been widely studied in traditional foods, while recently there is growing interest in novel protein ingredients. Due to the complex interaction between proteins and the food matrix, the structure–function relationship of proteins derived from the model system can be quite different from real foods. This Special Issue of *Molecules*, entitled “Structural and Functional Properties of Food Proteins”, aims to collect original research focusing on the structure–function properties of food proteins. Review papers which discuss current understanding and point out future research directions are also welcome.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Chemistry, Multidisciplinary*) / CiteScore - Q1 (*Chemistry (miscellaneous)*)
