

Recent Advances in Organic Synthesis towards Novel Drug Designs

Guest Editors:

Prof. Dr. Sandeep Verma

Department of Chemistry, DST
Unit of Excellence on Soft
Nanofabrication Center for
Environmental Science and
Engineering, Indian Institute of
Technology-Kanpur, Kanpur,
India

Prof. Dr. Javed Iqbal

Indian Academy of Sciences,
Bengaluru, India

Deadline for manuscript
submissions:

31 May 2024

Message from the Guest Editors

Presently, the major burden of healthcare concerns chronic non-communicable diseases, with unexpected pandemics adding to the complexity of the drug discovery process. It is estimated that 80% of healthcare resources contribute towards managing chronic diseases which are prevalent in community settings. Thus, pharmaceutical development in healthcare is a business which requires the support of cutting-edge research and development.

R&D-driven innovative solutions will require a substantial understanding of medicinal chemistry, organic synthesis, digital chemistry and other related expertise. The present Special Issue of *Molecules* will serve as a valuable resource summarizing the key advances and upcoming challenges in drug discovery. We invite leaders in the topic of organic synthesis towards drug designs to contribute to this Special Issue.

an Open Access Journal by MDPI

Editor-in-Chief

Münster, Germany

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Chemistry, Multidisciplinary*) / CiteScore - Q1 (*Chemistry (miscellaneous)*)
