Message from the Guest Editors

Dear Colleagues,

As guest editors, we would like to announce a Special Issue entitled “Drug-Cyclodextrin interactions. A basis for new formulations”. This Special Issue will collect communications, research articles, and high-quality review papers in the research fields relating to Drug-Cyclodextrin interactions and application in drug formulations development. We kindly encourage research groups working in various areas of pharmaceutical technology, biopharmaceutics, medicinal and pharmaceutical chemistry, chemical biology to make contributions to this Special Issue.

- cyclodextrins
- drug-cyclodextrin interactions/formulations
- analytical methodologies for drug: cyclodextrin interactions and structure elucidation
- in vitro/ex vivo/in vivo evaluation
- other routes of drug administration (nasal, pulmonary, transdermal etc)

We kindly invite you to contribute an excellent paper to the SI. You are welcome to visit the [website](#) and submit your paper [here](#).

If you have any questions, please feel free to contact Cecilia Li (cecilia.li@mdpi.com), the managing editor from Molecules editorial office.

an Open Access Journal by MDPI

Münster, Germany

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Chemistry, Multidisciplinary*) / CiteScore - Q1 (*Chemistry (miscellaneous)*)
