Deadline for manuscript submissions:

**closed (10 March 2021)**

### Message from the Guest Editor

Recently, the G.B. Elyakov Pacific Institute of Bioorganic Chemistry (PIBOC) celebrated its 55th anniversary. Over many years, we have been carrying out studies on the natural products of a both marine and terrestrial origin. In collaboration with many Russian and Foreign scientists, we have investigated diverse biomolecules, including steroids and terpenoids, quinoid compounds and alkaloids, polysaccharides and lipids, etc. Many living creatures such as higher plants, algae, marine invertebrates, etc. have been examined as sources of biologically active compounds, and numerous new species have been described, predominantly marine microorganisms. The conference was held in Vladivostok on 11–15 September 2019, with the participation of scientists from other Scientific Institutions and Universities of our country. We invite all participants of this conference, as well as all collaborators and friends of our institute take a part in preparing this Issue.

an Open Access Journal by MDPI

## Editor-in-Chief

## Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Chemistry, Multidisciplinary*) / CiteScore - Q1 (*Chemistry (miscellaneous)*)
